Pull-Out Quest Supply List
2022-2023

Dear Families,

For the 2022-23 school year, POQ specialists have updated supply lists to better reflect our program changes and goals. It is important that every student have the following items. However, *we do not require them*. Should your family be unable to participate or able to only participate in some items, please know that we will make sure your child has what they need for every assignment, for the entire school year.

Alternatively, should your family wish to provide extra supplies in support of those families who are unable to participate, we very much appreciate donations and will make sure they are given to any student who may have a need.

All supplies will be stored in the POQ classroom supply closet.
